## **Thin Blue Online to Exhibit at National Sheriffs' Association Exposition**

*Offering Proven State of the Art Online Communication Training*

**NEW ORLEANS, LA, JUNE** Thin Blue Online will showcase their online communication training at the National Sheriffs' Association (NSA) Conference and Exposition in New Orleans, June 16<sup>th</sup> -19<sup>th</sup>. ThinBlueOnLine.com provides a structured practice platform that builds verbal proficiency skills and has already been well received at the California Police Chief's Association's (CPCA) Annual Training Symposium and the Hispanic American Police Command Officer's Association (HAPCOA) National Training Symposium.

The patented eLearning approach allows officers to learn faster and retain longer through engaging self-study practice sessions. With 24/7 availability on computers, tablets and other mobile devices, results can be delivered directly to superiors with real time reporting available.

Thin Blue Online provides proven eLearning programs for law enforcement to practice and improve verbal communication skills. Structured practice is critical to success but unlike simulations for building proficiency with a sidearm, there has never been a tool for law enforcement officers to build proficiency with their voice, until now!

This training is developed for Cops, by Cops. A Thin Blue Online representative said, "communication is the key to de-escalating a potentially life-threatening situation."

*Thin Blue Online is an eLearning program to practice and improve verbal communication skills.*
