ThinBlueOnLine to Partner with Pinole, CA Police Department

Offering Proven State of the Art Online Communication Training

Foothill Ranch, CA, February 27, 2019 ThinBlueOnLine is pleased to announce that the Pinole, California Police Department will be the first nationwide official beta test partner of their eLearning programs for law enforcement. ThinBlueOnLine is thrilled to bring on this progressive department to help pave the way for the future learners in the Law Enforcement Community.

“The Pinole Police Department is excited to be partnering with ThinBlueOnLine on this innovative training platform. We are honored to be the first in the nation to beta test this new technology and feel that this Next Gen technology will aid in providing exemplary law enforcement services to the communities we serve.” - Chief N.H. Gang

ThinBlueOnLine’s eLearning approach allows officers to learn faster and retain longer through engaging self-study practice sessions. Structured practice is critical to success but unlike simulations for building proficiency with a sidearm, there has never been a tool for law enforcement officers to build proficiency with their voice, until now!

This training is developed for Cops, by Cops. Communication is the key to de-escalating a potentially life-threatening situation.

ThinBlueOnline is an eLearning program to practice and improve verbal communication skills.
